Once my Grant Application is approved when will I receive monies?

The scheme makes payment to applicants in arrears after they have purchased and received the support or items that the Grant has been approved for. In all instances we need to see copies of supplier's invoices and a copy of your bank statement evidencing that payment has been made to the relevant suppliers. You have 90 days from the date you sign your funding agreement (or a date agreed at time of application) to purchase all item. Once a claim has been submitted and approved payment should be made within 7 working days.

You can use any Specialist Support Provider you want to, so long as the support you are obtaining is relevant to the recovery needs of your business.

How long is the scheme open for applications?

We expect demand for Grants to be very high. The scheme will stay open for applications as long as there is money left to allocate to businesses. Once we have committed all funds we will close for new applications. The scheme will officially close 28 Feb 2020 which is the date that everyone who has been awarded a Grant must claim by.

How do I contact you if I need to speak to someone about my application or ask questions?

Make an application in the normal way and then contact Support.BSI@devon.gov.uk advising that you do not have the available cash flow to pay for the support up front and then claim it back in arrears. The team will call you identify a workable solution, but we will require proof that you do not have available funds in your business account.

Contact Support.BSI@devon.gov.uk immediately if you encounter delays. We can work with you to agree an alternative timescale as long as this does not exceed the end date of 28 February 2021

What happens to my application if I do not provide supporting evidence e.g. Quotations

You will receive an email explaining that we are unable to process your application due to missing information. You will be advised that if you still wish to apply for Growth Support Kickstart Grant you can do so but a new application will need to be submitted which includes all required information.
You will effectively join the back of the queue. Grants are offered on a first come first served basis and only to applicants who submit a complete and compliant application.

The Grant is advertised as between £1000 and £3000. The recent media states that grants of between £1000 to £5000 are available why is this different?

In order to maximise the support on offer it has been decided that to spread the support across as many business as possible, and therefore support will be capped at £3,000. Guidance from Ministry for Housing Communities and Local Government states that £5000 can only be offered under exceptional circumstances. In HotSW, the view has been taken that the current circumstances are exceptional for all businesses and the fair approach is to cap the grant at £3,000 for everyone.

I would like to apply for a grant under both the tourism and small business fund. Can I do this?

You can only submit a single grant application. The grant team will determine the appropriate grant pot.
